

## Commitment To Excellence

Bird Dog Cigars is honored to present its selection of Dominican 100% handmade long-filler cigars, manufactured with care and quality by a prestigious family owned and operated company in the Dominican Republic.

Our cigars are made with a unique production process that allows us to check each and every cigar four times during different stages of production from the moment they are simple raw leaf tobacco, until they are placed in their beautiful cedar box. This way we can guarantee draw, smokeability, texture and purity. The result: Cigars with superior taste and aroma. We are confident that you will find our brand to have remarkable flavor and a memorable experience.
